Zircon Computing announces that Dr. Douglas C. Schmidt, PhD has joined the company as Chief Technology Officer

Dr. Schmidt will lead technology strategy and solutions, community development, and external strategic partnerships

Wayne, New Jersey – June 5, 2009 -- Zircon Computing, developers of the world's fastest adaptive distributed computing software – Zircomp ® - announced today that Dr. Douglas C. Schmidt, PhD has joined the company as Chief Technology Officer.

"We have known and worked with Dr. Schmidt for over ten years, through our relationship with the ACE™ and TAO™ software development communities" says Alexander Mintz, CEO of Zircon. "We are extremely proud and excited to have Doug as part of our leadership team". He adds "this is an important step in the evolution of our company and our products as we continue our dedication to developing the next generation of adaptive distributed computing solutions for our customers".

Dr. Schmidt is Associate Chair of Computer Science and Engineering at Vanderbilt University in Nashville, Tennessee. He is a full Professor, with tenure. He also serves as a member of the ACE and TAO development team. "This is a natural next step in my association with Mr. Mintz and the Zircon Computing team", says Dr. Schmidt. He adds "I'm excited to join this exclusive group of professionals". "We see this as the right time to leverage what's happening in the cloud computing, high performance, and distributed computing markets and the capabilities of the Zircomp ® Software Suite to develop and enable better solutions for our customers"

About Zircon Computing

Zircon Computing, LLC, is an international software and services company, based in Wayne, New Jersey. Founded in 2005 by senior technologists from the financial services industry, Zircon develops and markets the Zircomp ® Software Suite of adaptive distributed computing software and services. Zircon customers include major financial services firms, government agencies, universities, and advanced technology companies. Zircon markets the Zircomp ® Software Suite worldwide both directly to enterprise clients and through an international network of partners. Zircon is privately held, and for more information, please visit <http://www.zircomp.com>
