Zircon Computing announces the release of the Zircomp ® Developers Toolset

Zircon software toolset is designed to simplify portability and adaptability to the cloud paradigm, and enhance reporting.

Wayne, New Jersey – May 26, 2009 -- Zircon Computing, developers of the world's fastest adaptive distributed computing software – Zircomp ® - announced today the release of the Zircomp Developers Toolset. The Zircomp ® software tools are designed to simplify portability and adaptability of the Zircomp ® software suite to any cloud computing paradigm.

"Our customers and the development community want a simple, yet comprehensive way to implement and benefit from the Zircomp ® software suite across the cloud computing environment" explains Alexander Mintz, CEO, Zircon Computing LLC. "We developed these tools to help our customers streamline the time it takes to allow the Zircomp ® software to operate in any cloud computing environment". He adds, "we've had a tremendous response to the integration API's and reporting engine which comprise the Zircomp ® Developers Toolset.

About Zircon Computing
